# Making business is a matter of products and people

### High performance nonwovens

Fibertex offers a full range of strong and highly uniform nonwovens tailored to the upholstery and bedding industries. A variety of needlepunch and spunbond nonwovens are available in a number of fibre compositions, colours, weights and textures. Our wide range of surface treatments and lamination capability provide additional possibilities. High tear, breaking and abrasion resistance and dimensional stability characterise our nonwovens. They are easy to punch, sew, glue and weld. Colours are dyed at the granulate stage giving the products optimum light fastness.

### Customised solutions

High flexibility is a key word. We offer nonwovens in individual roll widths and rectangular sheets. When choosing our exclusive embossed pattern the furniture and mattress top covers get an extra finish. We are pleased to match your requirements and finding the best solutions.

### Always nearby

In any customer relationship the crucial point is the personal contact. When we know your requirements we can offer you the optimum solution. No matter on what continent your production premises are located, our worldwide sales team is nearby and active. Fibertex attaches great importance to service and reliability in supplies – each individual customer is entitled to a first-class service.

### Fibertex - your preferred business partner

Fibertex is a pioneer with more than 35 years of experience in nonwovens. We have a long history of developing products with and for customers and cultivating enduring relationships with them. We constantly focus on quality and service levels.

### Technical support

Fibertex's technology portfolio is based on the latest needlepunch and spunmelt technologies allowing us to draw on a unique mix of technologies. We go beyond that and offer you long-term development and ongoing R&D support. Our international team would be glad to assist you in implementing Fibertex nonwovens in your production.

### Quality management

Fibertex is certified according to DS/EN ISO 9001, 14001 and Oeko-Tex Standard 100. Furthermore, we have introduced a digitally integrated quality management system, Q-Match®, in the planning, production and shipping departments at Fibertex providing instant electronic control of product quality and process capability. This ensures you a high and uniform quality.
