

# Face and Body Wipes

## **Sustainable, soft and soothing face and body wipes gently help us feel clean, comfortable and healthy.**

Face and body wipes are a convenient, safe and soothing solution for maintaining personal cleanliness by keeping our skin clean, fresh and free from irritations.

Fibertex materials for face and body wipes are scientifically designed to prevent any discomfort or irritation, making them suitable for even the most sensitive skin types. These soothing wipes provide a gentle touch from cheek to cheek, ensuring maximum cleanliness, comfort and well-being.

### **Value proposition**

The Fibertex team is committed to making sure we can go out into the world each day feeling good, with clean and healthy skin. Fibertex face and body wipes, which are gentle and soothing, have been designed to safely cleanse even the most sensitive skin.

## Face and Body Wipes

### Solution

At Fibertex we understand how precious life is and how important it is to feel your best - which is why we take extra care to develop and produce nonwovens for the finest personal cleaning products.

Face and body wipes, while convenient and widely used, do have some challenges. Continuous use of personal cleaning products can disrupt the skin's natural protective barrier and certain individuals may be allergic to certain materials, which can lead to skin irritations, redness or itching.

Therefore, the Fibertex team works closely with leading consumer and premium private label brands, to continually advance skin health and cleanliness, through increasing knowledge and application of biological innovation. Our commitment is to produce world class products that are not only reliable and hygienic, but also safe and soothing. Our materials are safe, even for continued use.

### Sustainable benefits

Fibertex manufactures the widest range of performance-based nonwoven materials used in the manufacture of the safest and most effective face and body wipes.

- Fibertex works in collaboration with experts to develop face and body wipes that ensure compatibility with all skin types.
- We support responsible design through use of hemp, organic cotton and pulp biobased fibres (viscose and lyocell) and biobased polymer(PLA)
- All our products are free of harmful chemicals, chlorine, binders or PFAS
- Our products meet stringent quality, safety and environmental standards, with full transparency through material declaration
- Ambitious Scope 1, 2 and 3 cradle-to-gate GHG emission reduction across global sites
