

Ultra-Premium Baby Care Wipes

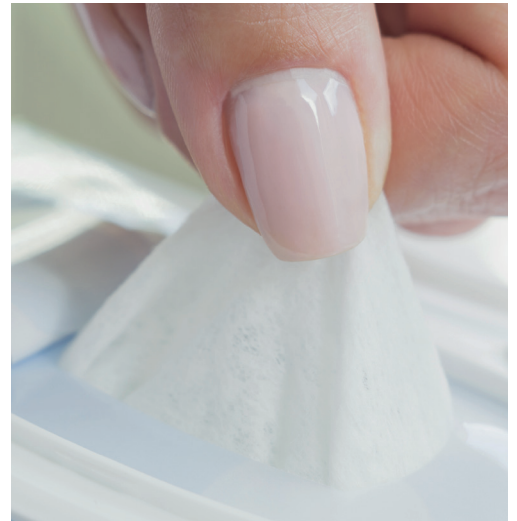

Sustainable, comfortable and highly effective Ultra-Premium wipes gently make sure babies are clean, happy and healthy.

Fibertex's Ultra-Premium baby wipes are the safest and most effective solution for maintaining infant hygiene, by keeping a baby's skin clean, fresh and free from irritations. Caregivers all over the world use wipes manufactured from our high quality materials, to tenderly keep babies clean, also enhancing the infant's happiness, health and hygiene.

Value proposition

Ultra-Premium wipes work gently, quickly and safely, making sure caregivers get to enjoy the happiest moments with their babies.

Ultra-Premium **Baby Care Wipes****Solution**

At Fibertex, we understand how precious life is, which is why we take extra care to produce the finest products for infants.

Baby wipes, while convenient and widely used, do have some challenges. Continuous use of wet wipes can disrupt the natural protective barrier of a baby's skin and certain chemicals can cause irritation, rashes or allergic reactions to a sensitive skin.

Therefore, the Fibertex team works closely with leading consumer and premium private label brands, to continually advance infant health globally. Our commitment to every baby's well-being, is to produce gentle products, that are not only reliable and hygienic, but also safe, soothing and gentle. Our materials are safe, even for continued use.

Sustainable benefits

Fibertex manufactures the widest range of performance-based nonwoven materials used in the manufacture of the safest and most effective baby wipes.

- All our products are free of harmful chemicals, chlorine, binders or PFAS
- Our products meet stringent quality, safety and environmental standards, with full transparency through material declaration
- Ambitious Scope 1, 2 and 3 cradle-to-gate GHG emission reduction across global sites
