Fibertex TarpTex Tarpaulin

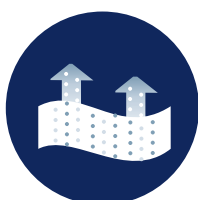

- high-performance features for various applications

Hydrophobic Material

The Fibertex TarpTex repels water, keeping your belongings dry even in the harshest conditions.

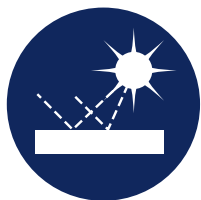

Breathable Fabric

Our innovative design ensures optimal air circulation, preventing mold, mildew, and moisture buildup. Your covered items stay fresh and intact.

Durable & Long-Lasting

Crafted from high-quality materials, the Fibertex TarpTex is built to withstand wear and tear, providing reliable protection year after year.

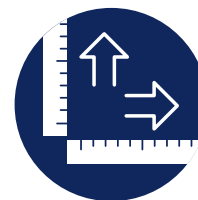

UV-Resistant

Shield your assets from sun damage and fading. The Fibertex TarpTex maintains its integrity even under intense sunlight.

Easy to Clean

Hassle-free maintenance – simply wipe or hose down the cover for a fresh, like-new appearance.

Custom Fit

Available in various sizes to suit your specific needs. Whether it's a small compost pile or a large boat, we've got you covered.

Product Data

TarpTex is a flexible and tough fabric, easy to fit and reusable multiple times. We offer several qualities depending on the application. Contact Fibertex for more details.
